PROGRAM BENEFITS

OPTIMIZE | EXTEND | SAVE

ICS Clean Supplies' preventative maintenance package provide equipment protection for all sized machines. Each program ensures a reduction in equipment breakdowns, by providing regular scheduled service appointments.

Expert Servicing & Advice

Our experienced service technicians will provide users important advice on the proper daily maintenance of each machine; also ensuring fast and reliable equipment repairs and inspections.

Increased User Productivity

Designed to help provide the user optimum performance and longevity by catching potential problems before they occur to avoid unexpected breakdowns.

Optimization

Maximizes equipment run times and allows the ability to control operational budgets with a structured preventative maintenance service fee.

Investment Protection

Ensures only TRUE branded replacement parts and consumables are installed and provided backed by the best service available.

PROGRAM DETAILS

Our preventative maintenance package is recommended every **3-6 months**. This can also be requested on-demand.
